### Product information

The innovative IntelligentDrive motor and operating technology offers three operating modes. Either for a particularly quiet, normal or a up to 40 % higher performance data destruction

Intuitive operation and multi-language menu selection via the high resolution 4,3" touch display. Relevant information such as operating modes and status reports are displayed. Consumable...

A separate metal detection feature protects the cutting unit and stops the device if metal parts, such as staples, are inserted. These can be removed and the shredding process can continue.

### For continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

### Energy-saving

In stand-by mode, intelligent control programme EcoSmart ensures there is an exceptionally low power consumption of 0.1 watts.

### Automatic start/stop

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

### Anti-paper jam function

Intelligent paper jam prevention. The machine recognises very quickly if too much paper has been fed in and reacts autonomously.

### High level of user safety

User safety is paramount. A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

### Convenient emptying

Robust wooden cabinet with castors. After opening the door, the reusable collecting bag can be easily removed and emptied.

[www.blauer-engel.de/iz174](http://www.blauer-engel.de/iz174)

Lifetime warranty on solid steel cutting rollers at security levels P-2 to P-5 (according to ISO/IEC 21964).
