

LARGE FORMAT CUTTERS

Not all projects can be cut on standard size trimmers. Designed for larger applications, these cutters are designed to cut larger amounts of paper with your safety in mind. Each cutter has built in features that will make your cutting task a safe and pleasurable experience. Dahle Large Format Cutters are engineered in Germany and can be found in art departments, custom frame shops, and print & copy centers.

L.F. GUILLOTINES - PREMIUM SERIES

Unlike the Pro Series L.F. Guillotines, these trimmers sit on top of a permanent metal stand and are lockable, to secure the blade and prevent unauthorized use. A ground, self-sharpening blade makes cutting matboard, foam core and up to 30 sheets of paper easy. An acrylic safety shield separates your hands from the cutting edge to prevent the chance of an injury. A fold up, cut-off shelf provides a place for your waste. Available in 32" and 43" cutting lengths.

STACK CUTTERS - PRO SERIES

Dahle Stack Cutters are manually operated but make easy work of cutting up to 700 sheets of paper at a time. Acrylic safety shields can be found on either side of the blade and will not allow the blade to move

while they are in the up position. Once the safety shield is in place, you have the ability to cut cleanly through 200, 500 or 700 sheets of paper with very little effort. This clean burr free cut through such a large stack of paper is made possible by a ground Solingen steel blade and a paper clamp that places even pressure across the entire cutting surface. A self-locking, spindle driven backstop allows for minimal adjustments to your measurements. These cutters can be mounted on any secure table surface or on the optional floor stands.

STACK CUTTERS - PREMIUM SERIES

With all of the features of the Pro Series, the Premium Series also includes an ergonomically correct cutting handle, laser guided accuracy, and the exclusive Au-

tomatic Cutting System. This revolutionary system provides a one step operation that automatically clamps and cuts through the material with a single downward movement of the cutting handle. This is a tremendous time saver when cutting multiple stacks. Available in 200 and 700 sheet cutting capacities.

L.F. GUILLOTINES-PREMIUM

Cuts up to 30 sheets of paper at a time

Ground self-sharpening blade made of Solingen steel is lockable to prevent injury

Acrylic safety shield separates hand from blade

Manual foot clamp holds work securely in place and prevents shifting

Ergonomically contoured handle reduces fatigue from repetitive cutting

Channeled paper guide ensures a 90° cut

Safe - Blade will not fly up or drop down

Versatile - Perfect for cutting mat board & thicker stacks of paper

Optional laser guide(#797) for added accuracy

Lift up "cut off" table squares and supports work on both sides of the blade

Integrated floor stand ensures proper cutting height and provides additional storage space

Shown with optional narrow strip cutting guide

Item	Cut Length	Capacity	Dimensions	Laser Guide
580	32"	30 Sheets	36" x 33 1/2"	Item 797
585	43"	30 Sheets	53" x 41"	Item 797

STACK CUTTERS-PRO SERIES

200 / 500 / 700 sheet cutting capacity

Ground Solingen steel blade provides a clean, burr free cut

Built in safety covers prevent movement of the blade until they are down

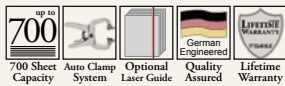

Manual clamp secures work in place and provides even pressure to prevent shifting

Cuts large stacks of paper cleanly and evenly

Spindle driven, self-locking backstop allows for minimal adjustments before cutting (846-848)

Optional floor stand ensures proper cutting height and provides additional storage space

Item	Cut Length	Capacity	Dimensions	Floor Stand
842	16 7/8"	200 Sheets	28" x 23 1/4"	712
846	16 7/8"	500 Sheets	30" x 25 1/2"	712
848	18 3/8"	700 Sheets	27 1/2" x 32"	718

STACK CUTTERS-PREMIUM

200 / 700 sheet cutting capacity

Ground Solingen steel blade provides a clean, burr free cut

Built in safety covers on both sides of the blade prevent accidental injury

Automatic Cutting System holds and cuts with the downward movement of the handle

Laser guide ensures accuracy on every cut

Cuts large stacks of paper cleanly and evenly

Spindle driven, self-locking backstop allows for minimal adjustments before cutting (858)

Ergonomically correct handle reduces fatigue and provides optimal leverage for cutting

Optional floor stand ensures proper cutting height and provides additional storage space

Item	Cut Length	Capacity	Table Size	Weight	Floor Stand
852	17 1/8"	200 Sheets	35 3/4" x 24 3/4"	92 lbs	752
858	18 3/8"	700 Sheets	47 1/2" x 31 1/2"	186 lbs	758
