

# GBC® Low Temp Laminating Roll Film, Gloss, 27" x 200", 5 mil, 1 Roll

3125928

## PRODUCT DESCRIPTION

GBC NAP II Low Temp Roll Film is designed to help you protect your most important documents, big or small. NAP II is used on heavy ink items or on heat-sensitive materials.

## FEATURES

- GBC NAP II Laminating Film 27" x 200' is wound on a 1" core and is compatible with 27" and larger thermal roll laminators that accept 5 mil film, including the GBC Catena 65 (post 2017)
- Choose the right film for your job. The 5 mil thickness provides semi-rigid protection. Select 10 mil if you need something protective and fully rigid.
- NAP II film is typically used for projects with heavy ink coverage or delicate items
- Keep your documents bright and bold. Glossy film has a shiny finish that helps emphasize colors.
- Load film into your laminator using patented, lightweight AutoGrip shafts or traditional steel shafts, which utilize thumb screws and core chucks.

## SPECIFICATIONS
